Note: These figures are NOT for publication. They are
approximately 90% correct, because of money due us, and
bills payable which have not been received.
Also, must be taken into consideration the ultimate
disposition of the fees and profits made and received by
the Chamber of Commerce organization. To date, it has not
been decided that all of these moneys are to be donated
to the High School Fund. Therefore, and until these items
have been decided, it would be premature to publish these
figures in any way.
